Tax Commission Write Important Letter to Attorney-General Bird.

WILLING TO CORRECT ERRORS

If It Can Be Demonstrated Any Have

Been Made in Assessing Railroads—

Public Will Be Given Hearing in

February.

Detroit, Mich., Jan. 21.—The board

of state tax commissioners, stung to

action by the wave of indignation that

swept over the state following their

determination of the values of the rail-

road properties of Michigan, now ex-

press a desire to correct their error, if

it can be demonstrated to them that

they have made an error. They do

not admit that they are wrong, and

they claim that they used their best

judgment in boosting the general as-

essment of the state \$300,000,000,

which resulted in reducing the rate of

taxation on the assessed valuation of

railroad property.

Not Too Late.

The three members of the board,

Robert M. Shields, William H. Hoyt

and James H. Thompson, have sent

a letter to Attorney-General Bird, in

which they defend the Galbraith law,

confering power of equalization on

them, and say that it not too late to

make corrections. They ask Mr. Bird

to meet them and give them the bene-

fit of any information he may have.

The letter is as follows:

Hon. John E. Bird,

Attorney General,

Lansing, Michigan.

Dear Sir:—We notice in the daily

press of the state that the result

reached by the State Board of As-

sessors in fixing the values of the rail-

road properties of the state and in

determining the rate of taxation for

the same was in your opinion more fa-

vorable to the railroads than can be

justified by the facts.

Not Infallible.

We also notice an interview given

to the public press by your deputy, Mr.

Harry E. Chase, which presumably

has your indorsement, stating that cer-

tain railroad properties were under-

valued. It is evident from the inter-

view that your department is in pos-

session of important facts relative to

the valuation of railroads of the state

not known to the State Board of As-

sessors. However, there is still ample

opportunity to make the showing. We

do not claim any such degree of in-

fallibility as is asserted in certain

quarters, and we used our honest

judgment in arriving at our published

conclusions. If it can be shown that

errors of judgment have been made,

there is still ample opportunity to

correct all errors. The State Board of

Assessors will be in session in the

city of Lansing until Feb. 15, 1908, as

a board of review and we believe that

in fairness to us and to the state you

should come before the board and give

us the facts upon which your pub-

lished opinions have been based. We

shall be more than pleased to fix a

satisfactory time for a public

hearing at which all parties interested

may be present and the whole matter

of values and rate thoroughly ex-

amined.

Duty of Citizens.

The statement has been made that

the condition of affairs which allows

the State Board of Assessors to fix

one rate for the general properties of

the state and another for the railroad

properties is intolerable. The State

Board of Assessors, as you know, does

not presume to fix the rate for the

general properties, as that is done by
